

MinEngine::getBank

Min::hardwareAnalogueControl
Changed

```
graph LR; A[Min::hardwareAnalogueControl Changed] --> B[MinEngine::getBank]
```

The diagram illustrates a call sequence. A box on the right, labeled 'Min::hardwareAnalogueControl Changed', has a blue arrow pointing to a box on the left labeled 'MinEngine::getBank'. The 'MinEngine::getBank' box is shaded gray, while the other box is white.
